Green statement GLUNZ OSB

Dear Mr. Smith,

AGEPAN® OSB 3 EN 300 and Green line OSB 3 are absolutely formaldehyde free glued by PMDI resin.

Our OSB consists of renewable and sustainable untreated wood which grows nearby location close to the production plant Nettgau.

For our action in producing an ecological and impact free product, we are certified to the program of Endorsement of Forest certification scheme (PEFC).

Because of the special properties according to strength and stiffness AGEPAN® OSB is perfectly made for applications in house building and wood constructing.

Produced as a high quality German product we are certified to the European Certification EN 13986 and EN 300.

Best regards

Matthias Acksel
Produktlinenmanager OSB
Glunz AG
